## EDUCATION

### Study Program

#### FULL STACK MERN DEVELOPER BOOTCAMP

08/2022 - 10/2023

### BSC

#### UC College ,Aluva CGPA (7.2/10)

07/2005 - 03/2008

### 12th

#### Jayakeralam Higher Secondary School , Perumbavoor , CGPA (8.6/10)

07/2002 - 03/2004

### 10th

#### StJohn the Baptist EM School , Aluva CGPA (90%)

05/2001 - 03/2002

## SKILLS

Data Structures & Algorithms

NodeJs

ExpressJs

ReactJs

HTML, CSS

Mongodb, MySQL

PHP

## PROJECTS DONE

### Blog creation (05/2023 - 05/2023)

- Technologies used -ReactJS , Bootstrap for frontend and MongoDB, ExpressJS for backend
- Created both backend and frontend for a new website with all crud operations site link
- <https://blog-mern-frontend.onrender.com/>

### Instaclone (01/2023 - 01/2023)

- Technologies used- ReactJS, NodeJS, ExpressJS, MongoDB.
- Created a clone of instagram with listing all posts and adding posts done using MERN - ReactJS for frontend and NodeJS, Express JS and MongoDB for backend
- <https://github.com/rahul-k-g/instaclone-backend>, <https://github.com/rahul-k-g/instaclone-frontend>.
- Created a clone of instagram with listing all posts and adding posts done using MERN
- Front end link -<https://github.com/rahul-k-g/Survey-Form-Project>
- Backend link -<https://github.com/rahul-k-g/survey-form-backend>

### Survey Project (03/2023 - 03/2023)

- Technologies used- ReactJS, NodeJS, ExpressJS, MongoDB

### Crane rental system (PHP project) (03/2020 - 05/2020)

- Creating a new site for renting cranes with admin panel listing the crane details, workers, crane features etc, involving all crud operations and managing the crane rental system according to the requirements given by users.

### Hostsailor.com (Technology used -wordpress) (12/2018 - 02/2019)

- Creating new Wordpress site using new theme, and customizing plugins adding additional application features tools like password, generator, image to doc converter, network speed tool , etc

### KHALEDYOUSSEF (<https://khaledyoussef.com/>) (Technology used- wordpress) (08/2016 - 10/2016)

- Created new wordpress site for actor khaledyoussef, using new theme.

### Backend work on clients.hostsailor.com and clients.ipv4mall.com (Technology used-whmcs) (12/2016 - 04/2022)

- Created many whmcs backend codes in php for managing various operations in whmcs creating customized hooks for regular updation of bandwidths, created various custom REST APIs for fetching bandwidth data from third party dc panels, updating the customer info stored in whmcs database, maintaining the codes and making codes adaptable and compatible with new whmcs versions,
- Bandwidth notification mail codes, termination/suspension/ unsuspension codes, stock updation codes, credit management ie credit discount on invoice page etc.

## ACHIEVEMENTS

Best coder Employee award at HostSailor
